AIR MAIL

Lieut. Comdr. N. Guillonard, R. N. N.,
c/o Consolidated Aircraft Corporation,
Lindbergh Field,
San Diego, California.

Dear Sir:

During your recent visit to the Vega Airplane Company, I believe you requested our Engineering Department to prepare a preliminary design survey covering a revised rear gun installation on a Dornier flying boat for the Royal Netherlands Navy. In this respect, we are sorry to advise that it is impossible for us to devote any engineering or production hours for this survey inasmuch as all of our facilities at the present time are required for the Emergency National Defense Program.

In view of the above, we are returning herewith your blueprints #11228 and #11229.

If we can offer any assistance in the way of technical discussions with our engineers, we shall be pleased to do so upon your next visit to the Vega Company.

Yours very truly,

VEGA AIRPLANE COMPANY
